FOR IMMEDIATE RELEASE

Concert Technologies Relaunches Website with New Look, Content and Capabilities for Rapid Deployment of Technology Rollout Services

Upgrade Reflects Enhanced Emphasis on National and International Project Rollouts

Dulles, VA, July 29, 2008 – Customers and visitors to the revamped Concert Technologies website relaunched today will find a new look, content, graphics and design to assist them in rapidly implementing technology rollout services in the U.S. and abroad.

Concert Technologies, the leader in the rapid deployment of multi-technology, multi-service, multi-site rollout services, upgraded its website to make it easier for visitors to learn more about the company and Concert Technologies' existing capabilities for technology rollouts. The site also features more specific

details on the company's expansion into the global marketplace, market reach and partners.

Concert Technologies is available to support the needs of government, commercial and international organizations in more than 80 markets worldwide.

Through the world's first Maestro Technology Rollout System™ and its proven methodologies and technical expertise, Concert Technologies delivers superior performance, minimizes costs, accelerates timeframes and reduces management effort while achieving successful project implementation.

Concert Technologies, Inc. founded in 1995, is a privately held technology service company based in Dulles, VA. It is the technology leader in deploying rapid technology rollouts for government, commercial and international organizations. It quickly implements, installs and manages multi-technology, multi-service, multi-site infrastructure projects nationwide and globally. Visit us at: www.concerttech.com
