## Concert Technologies Celebrates 400,000 Global Technology Rollouts

Concert Technologies Announces Major Milestone and Provides 2018 Year-To-Date Company Update

FOR IMMEDIATE RELEASE

DULLES, VA, July 17, 2018 – Concert Technologies is pleased to announce the successful completion of their 400,000<sup>th</sup> technology rollout. The company has seen extraordinary growth in 2018 and the milestone was reached in record time. Having attained a 99.78% [‘Done Right First Time’](#) rating, including a 96.11% ‘Tech On-Time’ evaluation, Concert Technologies continues to significantly increase the standard of performance for the technology rollout industry.

“To be able to deliver on our promise of exceptional service in such a demanding environment and at such high volume is truly remarkable,” said Dennis Mazaris, CEO and President of Concert Technologies. “We are extremely proud of the achievement, and it is a testament to the outstanding dedication and hard work of our employees that we were able to accomplish the feat with 94.3% of our customers reporting a ‘High’ or ‘Very High’ satisfaction rating.”

Concert Technologies’ exceptional growth spurred the addition of new employees in multiple positions across the organization since the beginning of Q1. The majority of the new personnel took up work within the company’s centralized Program Management Facility to ensure the company’s continued success as a global leader in technology rollouts and project management. The company’s Project Management Facility currently employs the world’s most BICSI credentialed Registered Telecommunications Project Managers (RTPMs) under one roof.

Concert Technologies is well known across the telecommunications industry for their Maestro Technology Rollout System<sup>®</sup>, a unique system of project management processes and methodologies that have defined the company for over twenty years and helped establish them as the nation’s leading technology rollout company. Actively managing the multi-site, multi-technology deployments of 93% of US Federal Agencies and 66% of Fortune 100 companies, Concert Technologies continues to apply the Maestro Technology Rollout System<sup>®</sup> as it expands the scope of their operations to address the needs of their growing client base.

### 2018 Q1 Company Highlights

- *January 24, 2018:* Concert Technologies co-hosts the [TOPGOLF IT Networking Event](#) with TOPGOLF Loudoun, bringing together some of Washington DC's biggest names and tech professionals to promote business and continue developing the Loudoun area as one of the world's leading technology centers.
