

The **ANATOMY** of a BAD ROLLOUT

Ear Ache

Poor communication between parties leads to too many uncomfortable phone calls

Migraine

Without effective management, stress levels rise and performance plummets.

Angina

Continual revisits put unbearable strain on your heart

Indigestion

Over-charging and bills that don't make sense give you a sour stomach

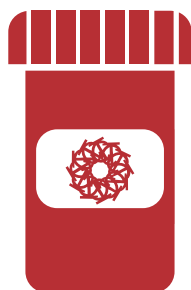

Athlete's Foot

Unprepared and un-professional Field Techs make your rollout limp along

Carpal Tunnel

Continuously replying to "what went wrong" emails wears you out

If you are experiencing any of the above symptoms, contact a Concert Specialist for treatment immediately!

Possible treatment side effects include:

- Improved Mood
- General Feeling of Relaxation
- More time for family and friends
