Concert Technologies Wins Platinum Innovators Award for VeriStructure® Program

FOR IMMEDIATE RELEASE

Concert Technologies Awarded Platinum for VeriStructure® program at the Cabling Installation & Maintenance 2018 Innovators Awards.

DULLES, VA, Sept. 12, 2018 – Concert Technologies is pleased to announce that its [VeriStructure®](#) program has been recognized with the Platinum Award by the judges of the annual Cabling Installation & Maintenance Innovators Awards program. VeriStructure®, the first and only Infrastructure Verification as a Service (IVaaS) program in the telecommunications industry, was honored for Outstanding Achievement in the Value-Added Programs category.

The Innovators Awards judging panel consisted of cabling and communications system specifiers, designers, integrators and managers with vast professional experience and participants were evaluated on the following criteria:

- Innovation
- Value to the User
- Sustainability
- Ability to Meet a Defined Need
- Collaboration
- Impact on Industry

VeriStructure® was recognized with the Platinum Award in the Value-Added Programs category for their development of a standardized approach to the verification, documentation, and maintenance of complex, distributed infrastructures. The program was also featured as the [cover story](#) of the February edition of CI&M Magazine.

Alan Bergstein, publisher of Cabling Installation & Maintenance said, "This prestigious award allows Cabling Installation & Maintenance to recognize the most innovative products and leaders serving the structured cabling industry. Our 2018 Honorees are an outstanding example of companies who are making an impact in the industry."

“We are extremely pleased to be honored for our VeriStructure® program by CI&M,” remarked Dennis Mazaris, CEO and President of Concert Technologies. “I want to thank everyone who has put their time and energy into developing the processes and methodologies behind the VeriStructure® program. As a company who focuses on developing and delivering innovative solutions to our customers, the recognition that this award symbolizes is proof that our hard work is helping transform the way the industry approaches telecommunications infrastructure documentation and maintenance.”

VeriStructure® will be featured along with the other honorees in the November Issue of Cabling Installation & Maintenance magazine as well as at <http://www.cablinginstall.com>.

About Concert Technologies, Inc.

Concert Technologies is a global technology rollout company with over 20 years of experience helping enterprises optimize their IT environments with a wide-ranging portfolio of programs and services. They offer commercial and government organizations transformational solutions in the planning, deployment, implementation, and management of nationwide and international technology deployments, ICT infrastructure consulting, IT asset management, and network structured cabling and wireless solutions. Their project management methodologies ensure the deployment of cost-effective solutions and drive high satisfaction ratings from customers, partners, and employees.
