

TechTable Joins Cabling Icon as Promotional Partner, Raises Jackpot to \$4,000

DULLES, VA, DECEMBER 4, 2014 – Cabling Icon announced today that TechTable has joined the contest as a promotional partner, raising the jackpot to \$4,000 and adding a TechTable kit to the Season 4 Cabling Icon prize package. This news comes at a critical time for participants of the low voltage industry contest just before the December 5th deadline for contest entries.

"Joining Cabling Icon as a promotional partner was an easy decision. TechTable kits promote productivity, safety and quality for the technician whilst terminating data cabling—all qualities that align with those of Cabling Icon," said David McKenzie-McHarg, Managing Director of TechTable. "Supporting the contest, supplying a TechTable kit for the winner, and raising the jackpot to \$4,000 will add to the recognition that installers and technicians deserve for their skills and hard work."

Cabling Icon, the first contest of its kind in the low voltage industry, raised the jackpot from \$3,500 to \$4,000 with the support of TechTable. In addition to the \$4,000 cash jackpot, the Season 4 Cabling Icon will receive:

- A TechTable kit donated by TechTable
- The coveted Golden Punchdown Award
- Embroidered Cabling Icon leather vest
- Bragging rights and the worldwide recognition of being the Cabling Icon

Cabling Icon is open to anyone with an interest in the technology cabling field, whether they are experienced installers/technicians or just starting their career. Those interested in entering the Cabling Icon contest are asked to submit their contest entry form and Round 1 paragraph explaining the past, present and future of their career as soon as possible to meet the December 5, 2014 deadline.

About TechTable

TechTable was researched and developed by technicians for technicians. TechTable eliminates manual handling risks associated with the termination of data cabling, significantly increases productivity and allows consistent quality of work. www.techtable.co

About Cabling Icon

[Cabling Icon](http://www.cablingicon.com) was developed by the [Concert Technologies](http://www.concerttechnologies.com) team as the industry's first entirely interactive contest to find the world's best technology cabling installer or technician in the world. The goal of the competition is to increase awareness of the field personnel, camaraderie among installers/technicians and increase the opportunity for education and career advancement in the industry. www.cablingicon.com
